This program is not accepting applications. Please visit the department website for information on other programs.

Application Deadlines

Type of Applicant	Fall Deadline	Spring Deadline	Summer Deadline
Domestic Applicants			
US Citizens and Permanent Residents	program not currently accepting applications	program not currently accepting applications	
International Applicants			
F (student) or J (exchange visitor) visas; A, E, G, H, I and L visas and immigrants	program not currently accepting applications	program not currently accepting applications	

Other Deadlines: Please visit the program website at <http://www.eng.umd.edu> or <https://spp.umd.edu/admissions/masters-admissions> (<https://spp.umd.edu/admissions/masters-admissions/>)

REQUIREMENTS

- Engineering and Public Policy, Master of Engineering and Public Policy (M.Eng.Pub.Pol.) (<https://academiccatalog.umd.edu/graduate/programs/engineering-public-policy-mepp/engineering-public-policy-meng-pub-pol/>)

FACILITIES AND SPECIAL RESOURCES

Courses in the Professional Master of Engineering program are currently offered on the College Park campus, at off-campus centers via video-conferencing, and 100% online. The Clark School of Engineering's Distance Education Technology and Services (DETS) office administers a live interactive distance education system and webcast course capture for students to take courses as they are happening or at a time convenient for their schedule. Remote sites around the State of Maryland where our courses can be taken live via DETS are at the Universities at Shady Grove in Montgomery County, the University Center of Northeastern Maryland in Harford County, and the Southern Maryland Higher Education Center in St. Mary's County. In addition to lecture dissemination, DETS provides state-of-the-art chat, bulletin board, video chat, group presentation, and discussion technologies that give our

distance students the same, if not more access to faculty and their fellow students.

The Clark School's Engineering Information Technology group also provides access to needed software and computer resources through dedicated virtual computer terminals that allow distance students full access to licensed software, libraries, databases, and specialized programs
