

SUPPLY CHAIN MANAGEMENT (BMSC)

ABSTRACT

Maryland Smith's Master of Science in Supply Chain Management program gives you the skills needed to efficiently manage the flow of goods from the beginning to end phases of a supply chain.

- Refine your problem-solving, analytical and communication skills as you simulate real supply chain scenarios.
- Use cutting-edge tools, including blockchain technology and SAS, to identify trends, forecast consumer behavior and improve operations.
- Position yourself to earn valuable credentials that will help you stand out in the job market, such as the Lean Six Sigma Yellow Belt and APICS certifications.

Financial aid is available to qualified students in the form of fellowships, graduate assistantships, and scholarships.

FACILITIES AND SPECIAL RESOURCES

The Office of Career Services (OCS) provides dedicated, professional support to help students launch their careers. The center links students directly to recruiters through a variety of services, including on- and off-campus recruitment and the online resume database. The OCS also participates in regional and national career forums and job fairs.

The Smith School is located in the Baltimore/Washington, D.C./Northern Virginia corridor. This region offers one of the highest concentrations of culture, diversity, and career opportunities in the country.
