

# SECONDARY EDUCATION MINOR

**Program Director:** Loren Jones, Ph.D.

The minor in Secondary Education provides opportunities for undergraduate subject area majors to enroll in a sequence of education courses that helps them to determine if teaching is a viable career option for them. The 15 credit minor may be taken prior to admission into a teacher preparation program. If an undergraduate student pursuing the minor desires to enter an education track, the candidate may apply for the dual major program to obtain certification as a secondary education classroom teacher through completion of a Maryland State Department of Education (MSDE) approved program option. Some of the courses undergraduates take to complete the Minor in Secondary Education may also be applicable toward certification options at the post-baccalaureate level offered through TLPL. These individuals should consult with an advisor in Student Services to identify the most appropriate option leading to teacher certification and to review the specific admission requirements associated with these programs.

The secondary education minor includes coursework from Teaching and Learning, Policy and Leadership. The curriculum provides a foundation in adolescent development and creating a classroom community with diverse learners along with an introductory methods course in one of the core secondary areas: Art, English, Social Studies, Mathematics, Science, World Languages.

## REQUIREMENTS

Course	Title	Credits
EDHD413	Adolescent Development (Students in the Terrapin Teacher program can take TLPL414.)	3
TLPL481	Embracing Diversity in the Classroom Community	3
